

Wing

The wing board enables remote management of your UPS and Power equipment via GSM communication (SMS).

Features

- Compatibility with all Gamatronic UPS and power systems.
- Supports up to ten SMS destinations.
- 2 levels of security.
- Temperature sensor - optional.
- 3 input dry contacts - available for customer peripheral equipment - optional.
- Gate control - optional, up to 250 phone numbers in memory.

Communication

GSM, GPRS(modem use)

Technical Specification

Software	
Cellular protocols	SMS ,Wireless modem
Serial protocols	Sec, Gamatronic DC Power systems protocols, Power+ protocols
Password protection	Yes, 2 levels
Breaking Alarm Notification	Yes, up to 10 phone targets
Hardware	
GSM cellular module	Built-in
GSM Bands	850/1900/900/1800 MHz
RS232	Yes
LED Indicators for GSM Module Status	Yes
Capable to be used as Wireless Modem	Yes, GPRS DATA
External temperature sensor (optional)	Yes, 1
Dry contacts (optional)	3 inputs
Physical	
Antenna connector	Stick/Wire - 3 meters
SIM card Slot	In front panel
Serial port	DB9
Enclosure	Aluminum
Dimensions	154 mm X 70 mm X 36 mm
Electrical	
External Power Supply	12 Vdc 1.5 W
